High-energy multitasker with top-notch programming skills. Excited and enthusiastic about working on real-time projects.

PROJECTS

Portfolio Website   website   *May 22*

- Developed Portfolio website using HTML, CSS, JavaScript, Bootstrap for frontend and ExpressJs, NodeJS, and MongoDB for Backend. Hosted the frontend and getform API version of the backend to get the responses to email on firebase.

Regression Models   *Team size - 5*   *Mar 22 - April 22*

- Found the relation between health indicators such as the *percentage of children dead from fever* and data on agricultural conditions, GDP, and tap water facilities for all districts of India.
- Cleaned and filtered huge data using **R, Python Pandas**, and **MS-EXCEL** techniques. Found the relation using Regression models. Visualized and analyzed the data relations using histograms.

Database and backend for E-commerce website
Team size - 4   *Mar 22 - April 22*

- Developed backend and database for E-commerce website and a basic frontend to show the database functionalities like triggers using **FLASK**, **MYSQL**, **HTML, and CSS.**
- Formulated the ER model and enhanced the database using techniques like indexing to optimize queries.

Will Hero   *Team size - 2*   *Dec 21*

- Implemented a clone of the popular single-player Will Hero game with 3 weapon upgradation features and different enemies and obstacles using the concepts of **Object Oriented Programming**.Used Event Driven Programming to closely replicate the animations in the game.
- Implemented using **Java, JavaFX, and CSS.**

WORK EXPERIENCE

Partner and Strategy at Memboro   *Aug 21 - Jul 22*
Memboro, Delhi India

- Led the outreach team, worked on strategizing efficient ways to reach out and onboard Content Creators and social media influencers, and also worked on business strategy and operations. Developed **Python** (Github) Software to automatically send emails to the influencers, improving productivity by 10x.
- Built good public relations for the company, found new ways to contact people, and convinced them to join the platform.

Co-Founder of Passious   *Mar 22 - April 22*
Passious, Delhi India

- Built good foundations for the startup and reviewed the development of M**obile Application** and **Website**. Helped Strategizing the outreach and Marketing.
